XpediteMD

Cancer Patient Navigation Platform

Maximize Reimbursements for Patient Navigation

Bill for patient navigation services provided by yourself, your medical assistants, nurses, nurse practitioners, and physician's assistants and generate >$100K in additional revenue.

Leverage AI for Operational Efficiency

Equip your staff to utilize AI for many aspects of patient care, including call transcripts, encounter summarization, synchronous translation, and more.

Focus on the Time to Treatment metric for your Patients

The platform will allow you to identify patients at risk of cancer treatment delay who may require enhanced navigation services to ensure timely care.

Dramatically Improve Patient Care and Patient Satisfaction

By billing for navigation services, your practice can afford to commit more time to educating and facilitating patient care, which will improve patient satisfaction.

Easy and Cost-Effective Implementation

☺ **No Upfront or Set-Up Costs**

☺ **Cancel License Anytime**

☺ **Pay a Low Monthly Fee and a Percentage of Collected Revenues from XpediteMD Usage Achieving an ROI of at least 5:1**

☺ **Navigation Staffing Services Available for Additional Support**

Brenda Moorthy, DO, FACS
Arizona Center for Cancer Care

"Working with XpediteMD makes a real difference in how patient navigation billing is managed. The platform simplifies the process, helps with documentation, and generated billing reports. XpediteMD greatly reduces administrative burden, which makes it possible to focus more on patient care."

XpediteMD

Tools to Streamline Cancer Patient Navigation

Billing Analytics to Identify Revenue Opportunities

Refer patients to the platform and track their progress depending on the stage of their journey to make sure they are on track to treatment.

Capture Patient Navigation Encounters with AI Call Transcription

Seamlessly capture, transcribe, and summarize patient Telehealth encounters and complete questionnaires like SDoH, Verbal Navigation Consent, and others.

Providers can Capture Encounters on the Go with a Secure Mobile App

While on the go, providers can use the XpediteMD secure mobile app to log phone encounters on the go.

Get Billing Documentation Generated Automatically

The XpediteMD platform will generate billing documentation for all consented patients at the end of the month based on the logged encounters, codes, and clinical roles.

Proven Outcomes

In an integrated health network, the XpediteMD software platform reduced the median treatment time from 74 days to 17 days - a 77% reduction - among Medicare Advantage patients, and reduced administrative overhead by 80%

American Journal of Accountable Care. 2024;12(2):23-29.

Among Medicaid patients, the XpediteMD platform reduced the median time to treatment from 66 days to 16 days—a 73% reduction. The time from abnormal breast imaging to treatment also dropped from 100 days to 28 days, a 77% reduction.

American College of Surgeons Quality and Safety Conference, July 17-20, 2025

Cancer practices with 140 or more new Medicare patients per year could see an annual revenue increase of over $100,000 through patient navigation activities performed using the XpediteMD platform without increasing staff workload.

Based on the billing data of cancer practices in Southern California
